• ABOUT US •

NONPROFIT ACTION NETWORK is a multi-disciplinary group of highly skilled consultants dedicated to meeting a wide range of nonprofit organization needs.

Each consultant brings a unique set of skills and years of experience to New York area nonprofits. Recognizing that an organization's needs are often interrelated, the members of the network have the ability to assemble a collaborative team of consultants to meet the variety of challenges nonprofits face.

We work on three distinct levels:

- each of our businesses services clients directly using our staff and/or associates.
- if needed, any one of us can bring in a team of consultants with varied skill sets to meet your organization's needs, thus providing a multi-pronged approach to consulting.
- we serve as thought leaders to advance issues that are important and relevant to us all, through public speaking and contributing articles to on- and off-line publications.

Our members possess skills that are crucial to the establishment and maintenance of healthy, thriving nonprofits. Our areas of expertise include:

- Banking
- Brand Development
- Coaching
- Cost Management
- Dispute Resolution
- Financial Management
- Fundraising Counsel
- Fundraising Strategies
- Governance Training and Consulting
- Grants
- Graphic Design
- Human Resources
- Marketing Communications
- Organizational Management
- Payroll
- Planned Giving and Endowment Programs
- Printing
- Social Networking
- Website Design and Development

In addition to working in our own consulting practices, members of the Nonprofit Action Network are committed to making the world a better place. In 2009, we proudly provided hundreds of hours of pro-bono services to the nonprofit community.
